

We just changed the game again.

 **FORESIGHT**
SPORTS

And we want you to be the first to take advantage of it.

Introducing our latest Game Changer.

GCQUAD™

The industry's first quadrosopic launch monitor.

Six years after introducing the revolutionary GC2 Smart Camera System, We've once again pushed the boundaries of innovation to create the most accurate, versatile, and complete launch monitor available today.

Expanded ball capture area - up to 6X larger than the GC2

Greater connectivity including WiFi and Ethernet

Included alignment stick for manual target alignment

Swappable, long-life battery for easy power management

GCQUAD™

A beauty of a beast.

The GCQuad™ represents the pinnacle of innovation, design, and engineering. Built from the ground up with leading-edge technology and state-of-the-art optics, the compact, ruggedized GCQuad™ delivers both ball and club data with unprecedented accuracy and reliability.

Better, Faster, Easier Than Ever

- Unmatched ball and club performance data in a single compact unit
- Compact, ergonomic, and easy-to-carry
- Even greater indoor / outdoor readiness in a ruggedized, weather-resistant form factor
- An integrated solid-state NIR LED lighting array eliminates the need for flash replacement

You-Asked-For-It Upgrades

- Easily and accurately set the target line with the included target alignment stick
- A larger outdoor-viewable display
- An expanded ball capture area - up to 6 times larger than the GC2
- Greater device connectivity – including WiFi and Ethernet
- A built-in barometric altitude sensor for the most precise down-range values possible
- A swappable, long-life Lithium-Ion battery for simple, easy power management

Massive Amounts of Data

The GCQuad™ delivers a full spectrum of real-time ball and club data, and always with unmatched accuracy and reliability.

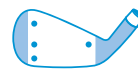

Ball Data

- Ball speed
- Horizontal launch angles
- Vertical launch angles
- Spin
- Spin axis
- Carry distance (calculated)

1-Dot Club Data

- Club Head Velocity
- Attack Angle
- Swing Path
- Smash Factor

4-Dot Club Data

- Club Head Velocity
- Swing Path
- Attack Angle
- Club Face Angle
- Smash Factor
- Dynamic Loft at Impact
- Dynamic Lie at Impact
- Impact Position on Club Face

A special offer just for you.

Advanced ordering and an unbeatable trade-in offer for our current customers.

As a special thank you, Foresight Sports is offering the new GCQuad™ to our loyal customers before it's made publicly available later this year.

And—for a limited time only—you can trade-in your GC2, HMT, or FR-1 software for a credit toward the purchase of your new GCQuad™.

How it works

To trade-in your previously purchased Foresight Sports technology for the new GCQuad™ just follow these simple steps:

- 1 Call or email your Foresight Sports sales representative.
- 2 Provide the serial numbers to the previously purchased technology you wish to trade-in*. (GC2, HMT, and FR-1 software all qualify)
- 3 Your Foresight Sports sales representative will provide you with the trade-in* value of your current technology, which will be applied toward the purchase of your new GCQuad™.
- 4 Package your current trade-in technology and ship it back to Foresight Sports.

** Trade-ins only accepted with the purchase of a GCQuad. This offer is available to U.S. customers only.*
